## **DETAILED ACTION**

### ***Election/Restrictions***

1. This action is in response to the application filed on December 22, 2000. Claims 1-90 are pending.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-63, drawn to manage medical services, classified in class 705, subclass 2-4.
  - II. Claims 64-90, drawn to manipulate user's image files, classified in class 345, subclass 156, 619, 650, 676, 808, 862.
3. The invention are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as a medical services network for receiving, transmitting and interpreting diagnostic data. Invention II has separate utility such as manipulate user's image files. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

- Art Unit: 3621

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3621
